ABOUT US

KANA AGRO BALI

Established in the heart of the archipelago, CV Kana Agro Bali was born out of a deep appreciation for the fertility of Indonesia's volcanic soil and the agricultural expertise of local farmers. We serve as a bridge connecting the finest tropical produce to the culinary, hospitality, and premium manufacturing industries, both nationally and across export markets.

Our focus is set on high-precision commodities: **Indonesian Vanilla (Bourbon) Planifolia Gourmet Grade A, Premium Moringa Powder, Specialty Coffee & Cocoa, and Select Tropical Fruits**. We believe that quality produce is not solely about plant varieties, but rather the dedication at every stage of the value chain—from plantation site selection, natural cultivation, and harvesting at peak ripeness, to post-harvest handling based on strict quality standards.

By combining traditional farming wisdom with modern quality control, we preserve the authentic flavor profile, rich aroma, and nutritional freshness so that it reaches our business partners in optimal condition.
